Dear Parents,

As part of the ongoing training for administrative staff, we are working with Dr. Ross Greene's on Balance, to learn how to properly implement his Solutions program. This program teaches us to involve them in solving their problems at school that they may have meeting school expectations

During this training, we need to learn how to co good conversations with students in order to h and what their perceptions are about these diff program is called the "Empathy Step." As we r Empathy Step, we will need to record these co so that our coach can listen to them and hear f give us feedback. These conversations will be and uploaded to a secure dropbox accessed b deleted from our computers, and then deleted as we have reviewed them with our coach. No name. Only a few students will be recorded; jus If you do not wish your child to be recorded, pl and return it to your child's school.

Thank you,

Lynne Witham, Head of School

I do not wish my child to be recorded using co Empathy Step conversation for training purpos
